

Sistemas, Gestión y Consultoría Alfa GL S.A.S. PORFIN Achieves Oracle Exadata Ready Status

Financial Investment Portfolio PORFIN is Supported and Ready to Run on Oracle Exadata Database Machine.

DATELINE – Sistemas, Gestión y Consultoría Alfa GL S.A.S. today announced that Financial Investment Portfolio PORFIN Version 4 patch 13.03.18 has achieved Oracle Exadata Ready status through Oracle PartnerNetwork (OPN). Today's announcement demonstrates that Sistemas, Gestión y Consultoría Alfa GL S.A.S. supports Financial Investment Portfolio PORFIN Version 4 patch 13.03.18 with Oracle Exadata Database Machine and Oracle Linux.

Sistemas, Gestión y Consultoría Alfa GL S.A.S. is a Gold level member of Oracle PartnerNetwork.

Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SuperCluster Ready are part of the Oracle Exastack Ready program which allows partners, such as that Sistemas, Gestión y Consultoría Alfa GL S.A.S., to be recognized by Oracle for developing, testing and tuning their applications on Oracle Exadata, Oracle Exalogic Elastic Cloud or Oracle SuperCluster engineered systems. Oracle Exadata delivers extreme performance and is the ideal database platform for OLTP applications, data warehouses as well as the varied and unpredictable workloads of cloud computing. It is a complete package of servers, storage, networking, and software that is massively scalable, secure and redundant. Oracle Linux brings the latest Linux innovations to market, offering extreme performance, advanced scalability, and reliability for enterprise applications, and enabling lower costs.

The Oracle Exastack Ready program recognizes that Sistemas, Gestión y Consultoría Alfa GL S.A.S. as having applications that leverage the latest Oracle technology to better support joint customers.

ALFA GL's suite of software products is geared toward promoting and increasing productivity and spotlights Investment Portfolios, Treasury applications and Stock Holders systems. Consulting services are available either project based or task oriented based on customer needs. Since version 1, Alfa GL software has been developed using Oracle technology, allowing Alfa GL to offer their applications on an Oracle Exadata.

“When partners such as Sistemas, Gestión y Consultoría Alfa GL S.A.S. leverage the latest component products of Oracle Exadata Database Machine as the foundation for their application, they benefit from a complete, integrated and cloud-ready infrastructure that will help them utilize new features and functionality and drive innovation,” said David Hicks, Vice President, Worldwide ISV and OEM Alliances, Oracle. “We are pleased to see Sistemas, Gestión y Consultoría Alfa GL S.A.S. achieve Oracle Exadata Ready status as this significant milestone helps equip them to deliver superior value to customers.”

ALFA GL's services strategy is intended to maximize our client's benefits combining our financial solutions and their Oracle technology. Our service and delivery model emphasizes on project management, quality control and on-site client interaction.

About the Oracle Exastack Program

The Oracle Exastack program helps enable Independent Software Vendors (ISVs) and other members of Oracle PartnerNetwork (OPN) to rapidly build and deliver faster, more reliable applications. Leveraging the Oracle Exastack program, qualifying OPN members have access to Oracle performance experts and dedicated labs for testing and tuning their applications on Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud and Oracle SuperCluster. With an Oracle Exastack Optimized status, partners will receive access to corresponding Oracle branding, logos and related benefits to effectively differentiate their offerings. Customers can be confident when selecting Oracle Exastack Optimized applications that they are supported, and have been tested and tuned with the goal to achieve optimal performance, scalability and reliability. Also part of the program, Oracle Exastack Ready is dedicated to helping ISVs run their solutions on the latest major release of Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud, Oracle SuperCluster and their component products, including Oracle Database, Oracle WebLogic Server, Oracle Solaris, Oracle Linux and Oracle VM. These products provide partners with a lower cost and high performance infrastructure for database and application workloads across on-premise and cloud based environments. About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more, visit <http://www.oracle.com/partners>.
